VIA BALZELLA N. 41 – FORLÌ  
ITALY*

***Executive and Operational Headquarters***

*Next to the well-furnished and technologically-advanced administrative offices, the company owns a 10,000 sqm shed, the operational headquarters.*

# *Our story*

Located in an elegant open space building in Forlì, a lively town in Emilia Romagna, “Impresa Orioli Enea Srl” was set up in the Twenties by Mr Enea Orioli, a skilled master-builder, who started a construction business and began to maintain and enlarge farmhouses in the area of Forlì.

After more than 90 years, “Impresa Orioli Enea Srl” is today one of the most reliable building companies in Emilia Romagna and it mainly operates in the fields of civil and industrial real estate development, restoration and maintenance of buildings under law protection. Road construction and urbanization works are additional areas of activity in which “Impresa Orioli Enea Srl” shows its skills and great expertise.

Thanks to its reliability and to the wide range of services it offers, “Impresa Orioli Enea Srl” has managed to create a big network of customers stretching from the North to the Centre of Italy.

Over the past years, customers like AGIP ENI (the Italian leading drilling company), ENEL (the Italian Electricity Management Body), and the Italian Army, which are still relying on “Impresa Orioli Enea Srl” for their biggest job commissions, have strongly contributed to the company’s success and expansion.

In the early 1980's Impresa Orioli was engaged to build Jeddah's hospital in Saudi Arabia, together with other important Italian companies.

The company has obtained many job commissions from the most important local bodies and from some of the biggest national companies, such as some of the most renowned local banks, like Unicredit, the municipalities of the Emilia Romagna region, Electrolux Zanussi Spa, one of the major European manufacturers of household appliances, and Protex Italia Spa, one of the leading companies in the sector of radioactive waste disposal and management.

Cassa dei Risparmi: Conference Room

Over the years, "Impresa Orioli Enea Srl" has specialized in the construction of industrial complexes and it has built some of the most popular industrial buildings, such as the one hosting Ducati Motors offices in Bologna and some sheds and buildings located in the production complex of the industrial area of Forlì.

However, "Impresa Orioli Enea Srl"

has focused not only on industrial buildings, but also on more refined and artistic works, which have had a great social impact on the city life, such as the conference room of "Cassa dei Risparmi di Forlì" (a well-known local bank), in which most of the main political and economical events in town now take place.

Villa Pandolfa

Moreover, the company is locally famous for the restore of “VILLA PANDOLFA” in Fiumana, near Predappio. It is an ancient, famous villa that was equipped with cellars for wine production.

The Villa' cellars

Among the other most important facilities built by the company it is to be mentioned Hotel Bellevue in one of the most popular locations for tourism, Milano Marittima.

Hotel Bellevue 1959

Hotel Bellevue today

Hotel della Citta', the local belltower, Hotel Michelangelo, and the headquarters of the Chamber of Commerce are nowadays Forli's flagship, an integral part of the city heritage.

*Hotel della città: a Gio Ponti's project realised by Impresa Orioli*

*“It is not concrete, it is not wood, it is not stone, it is not steel or glass the most resistant element. The most resistant material in construction is art.”*

*Gio Ponti*

Thanks to the expertise acquired over the years, the company has now set a future business plan, which includes the focus on civil building in reinforced concrete, which was and still is one of the strong points of the company's activities.

Lady of the fire

We ensure the contracts undertake are managed to the highest standard by liaising with Architects, Structural Engineers, Interior Designers and Borough Council Officials. In addition to this each job is micromanaged and the client is informed promptly of all building progress to ensure their total satisfaction.

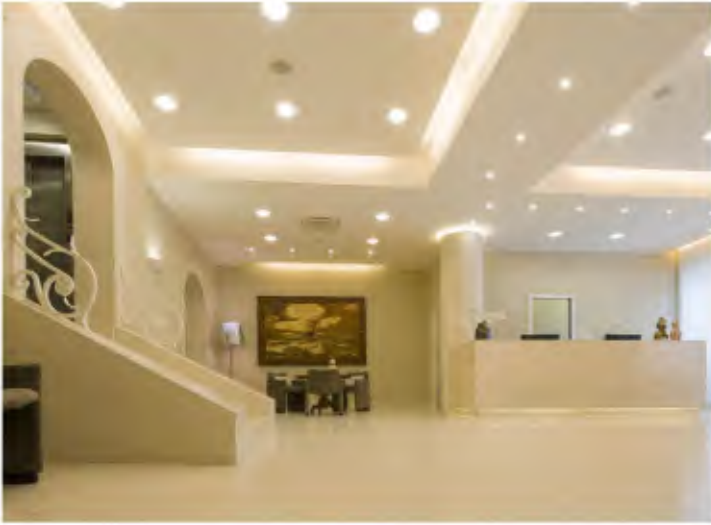

Impresa Orioli prides themselves on quality workmanship, customer care, efficiency and building performance excellence.

We are a customer driven company, and thrive on the satisfaction gained from us by our customers.

We always give 100% to all our customers, as our valuable customer you can also expect to be kept informed on the progress of works, while giving our expertise's advice on any changes we feel, may be beneficial to you, any changes to work or schedule, will be promptly informed.

The customer vision is our goal, and from start to finish our full service approach sees us dedicate our resources to ensure your project finishes on budget and on time. Our strategies are customers led, and our designers are on hand to offer any suggestions or solutions as the development progresses.
